About Me

I am a creative and solutions-driven professional with 10+ years of project management experience in the geo-environmental sector. I have recently been certified in Front-End Web Development, I'm excited to transition into the tech industry and apply my problem-solving skills to build innovative solutions that make a real-world impact.

Skills

- HTML5 & CSS3
- JavaScript & React
- Python
- Responsive Design
- APIs
- Git & GitHub
- Bootstrap
- VS Code

Education

Junior Front-End Developer

SheCodes

2023 - 2025

I gained practical skills in HTML, CSS, JavaScript, and React. I learnt to build responsive projects using APIs, Git/GitHub, and modern UI/UX principles, and applied problem-solving through coding challenges and real-world projects.

Introduction: Full Stack Development

IT Varsity

03/2025 - 07/2025

I gained technical skills in Python, Django & APIs. The course was an excellent introduction to full-stack development, product strategy, marketing, and funding.

National Diploma: Mechanical Engineering

University of South Africa

2009 - 2016

I am working towards the completion of a National Diploma in Mechanical Engineering. I have completed 33 modules towards the completion of my National Diploma, and I am left with 4 theory modules as well as 6 practical (portfolio) modules to complete towards my National Diploma

Experience

Programme Manager

Xihlovo Enterprises For Geopotential

2023 - 2024

I am the Founder and Director of Xihlovo Enterprises (Pty) Ltd. Under my leadership, the company was appointed by Geopotential to serve as Programme Manager for the development of a Dolomite Risk Management Strategy for a local municipality.

Director and Project Manager

Kgoma Africa (Pty) Ltd

2021 - 2023

I held a position as Director and Project Manager at Kgoma Africa (Pty) Ltd, where I was directly responsible for overseeing project management, participating in business decision-making processes, and conducting research to drive enterprise development initiatives for the company.

Project Coordinator and Manager

Ages Alpha (Pty) Ltd

2015 - 2021

I held the position of Project Coordinator and Manager at Ages Alpha (Pty) Ltd, working as part of a dynamic multidisciplinary team with professionals such as Geohydrologists, Geologists, Geotechnical Engineers, Mechanical Engineers, and Town Planners. My responsibilities included overseeing technical processes such as field data capturing and data management, preparing technical reports, liaising with clients, project planning, and budget tracking and management. I also contributed to map compilation using ArcGIS and QGIS and managed the Dolomite Help Desk, ensuring efficient support and information delivery to the affected community.
